

Nigerian Institution of Metallurgical, Mining & Materials Engineers

(A Division of The Nigerian Society of Engineers)

in collaboration with **PCS Training**
Presents Workshop on:

MAINTENANCE MANAGEMENT PRACTICE in the 21st Century

RATIONALE

Plants and capital-intensive industries in this century are facing challenging times in relation to the costs incurred in the management and maintenance of machines. Companies are under increasing pressure to reduce costs, meet tougher performance and production targets, competitions, comply with regulatory requirements, and maximize return on assets.

Visionary and strategic maintenance management approach that will square up to these challenges must be built around identification of technical opportunities to reduce the cost of maintaining assets, leading to improved performance and life extension of those assets. This will lead to incompetitive advantage by integrating with optimized business processes throughout the asset life cycle (cradle to grave).

This workshop will present participants with innovative and performance enhancing tools and techniques as well as options for organizing and implementing maintenance to attain higher plant uptime at reduced cost.

HIGHLIGHTS

- ☞ Types of maintenance organisations and practices
- ☞ Life-cycle Asset Management and Life Extension Programmes
- ☞ Maintenance Planning and Scheduling Tools
- ☞ Lessons from Reliability Centred Maintenance Paradigm
- ☞ Operating Equipment Asset Management Tools
- ☞ Advanced Automation in Maintenance Operations
- ☞ Case studies and Syndicate session

FOR WHOM

Maintenance, Asset and Technical Managers, Engineers, Supervisors, Technologists and Technocrats

FEE:
N170,000

Bank: First Bank
A/C No: 2002925664

DATE:

11th - 13th May, 2020.

Re-run:

14th - 16th September, 2020.

VENUE:

Leadway Assurance Training Centre (LTC)

10, Abebe Village Road, Roof Top,

Apex Mill Building-Thomas Wyatt, Iganmu, Lagos.
